

## DAY OF ADVENTURE – CITY TOUR

Sunday, 4 August 2019

*Full day of cultural and historical discovery*

*The upper place \* The queen palace \* Handcraft market*

Discover the Outstanding  
Universal  
Value of the capital

### Join the highest point of the city

The queen palace and the Upper Town: it is an urban site of exceptional quality that has no equivalent in sub-Saharan Africa. The mix of typically Malagasy architectural elements and elements from the colonial presence has shaped a unique architecture of high quality that is still sufficiently well preserved.

The site is not only characterized by its architecture, but also by a specific urban form in which the elements of the landscape play an important role and contribute to the creation of a coherent urban ensemble of high heritage quality. The different influences - Asian or European - are visible on all the buildings of the Upper Town.

### The largest handcraft market

Antananarivo Madagascar is full of market. Hundred of artisans merged together here to the biggest handcraft market of the country. All the stuff is made in Madagascar and most is even handmade :wooden carving, precious stone, numerous decoration made of metal, wooden mask, raffia bags, raffia placemats and figurine, antemoro paper, spices, small dinky cars made of old cans, magnets, key ring made of wood, recycled cans or raffia, hand painted image on canvas, wooly and spider silk scarf.....

The **Day of Adventure Tour** is free of charge for all ATBC 2019 participants.

To participate in this tour, please mark your choice during your registration.
