TZ 312 08.00/09.55 subject to change**

Breakfast at the hotel. Transfer to the airport and fly to Diego Suarez or Antsiranana , the capital of the North with its cosmopolitan people .

You will be met by our guide . Then drive to Anjahankely village where the protected area Andrafiamena Andavakoera ,the home of the black lemur is located .

After about 4 hours driving on the national Road RN6 and on the track from Marotaolana you reach your lodge “ Balck lemur camp” , the lodge is surrounded by beautiful landscape of mountains and forests, Black Lemur Camp based in the village of Anjahankely, nested at the heart of Andrafiamena. It presents a lof of main attractions: sandstone covered rainforests, some limestone blocks with dry forest, and transition forests ... where many endemics animals and plants live

Overnight on full board basis at **BLACK LEMUR CAMP** - 3 nights

Black Lemur Camp has 10 spacious bungalows with private bathroom, built with local materials. 08 rooms are tented lodge style and 02 as a family bungalow with semi-hard building.

The restaurant and its bar&lounge are on large elevated terrace with breathtaking views up to 50 km and open up to the forest. The local women serve you the delicious perfumed white rice grown in the Anjahankely village.

DAY 2 – DAY 3 ANJAHANKELY : hiking within the protected area of Andrafiamena Andavakoera

From 2 to 6 hours walking per day to discover the highlights : the natural swimming pool, the dry bush and the dry forest, enjoy the panoramic view of the surroundings . Meet the black lemurs and other animals .

Your guide will be briefing you and will arrange tours according to your needs and wishes . here unders are some samples of circuits you can do.

Andrafiamena Andavakoera Protected area : The area is managed by a non-governmental organization called "Fanamby", the protected area of Andrafiamena-Andavakoera includes several types of forests: dry forests, transitional forests, rainforests, wetlands, or wooded savannas. The richness of the fauna and flora includes 7 species of lemurs, 5 species of amphibians, 28 species of reptiles and abundant birds, while the forests are home to 62 families of plants.

Meet the Black Lemur : 3 hours hiking withing the Andrafiamena massif : Meet the balck lemur and other spieces such as Eulemur coronatus, Eulemur sanfordi , Lepileru spetentriolanis. Birding is also done during the walk : Agapronis cana, Bernieria madagascariensis , coua cristata Lophotiibis cristata may be seen there , chameleons : Furcifer oustaliti , Brookesia stumpffi and snakes (Boidae species) are also seen. This is an easy walk along the mountains flanks .

Community immersion circuit : Anjahankely village is situated 20 minutes from the lodge. The proposed visit is to allow you to participate in all daily activities of the local people Antakarana : pounding rice, cooking , combing your hair , playing with children

The villagers of Anjahakely are specialised in « perfumed white rice », an endemic product in the area. It is prepared from start to finish by the association of women from the communities. You can see the ricefields and the village growing method. You'll like the smell cooking rice more than anything else and you'll buy it directly from villagers.

Night walk : One hour night walk through the dry forest of Andrafiamena . You will meet the Mircocebus tavaratra (northern Microcebus) , cheeirogaleus and Uroplatus. This is an easy walk.

Panoramic tour : 6 hours higking through the dry forest . Enjoy the landscape in 360° view , in unveiling all the national parks and reserves in the surroundings : Specila reserve of Ankarana, Specila reserve of Analamerana , Amber Mountain , French Mountain , Nosy Komba Island , Tsaratanana . The summit of Andrafiamane is at 560m high from the sea level.

DAY 4 ANJAHANKELY – RED TSINGY – ANTSIRANANA

Breakfast at the lodge. Enjoy your last visit in the morning as after lunch you will leave this magic world. Drive back to the National Road RN6 and continue to Sadjoavato village, tack the track toward Irod oRed Tsingy.

The **Tsingy Rouge** (*Red Tsingy*) is a stone formation of red laterite formed by erosion of the Irodo River . So These Tsingy are made of red laterite (similar to clay) and not of limestone rock like the Tsingy at Ankarana reserve.
